Tu-Tho Thai (ITxPT)
Kasia Bourree (CEN)
Alberto Capponi (Nordcom)

Summary of decision points & feedback from actions from previous working session

The following tasks were defined during the previous sessions:

| No. | Context | Tasks | Status | Due date |
|------|--|---|--------|--------------------------|
| 74.1 | Discussion about the alignment with CEN, Transmodel, OSDM. | <p>Impact assessment is almost finished. It should give insights in collaborating with CEN, Transmodel or OSDM.</p> <p><u>Update:</u> The document right now is a 95% version. Hopefully the next TOMP meeting it will be a 100% version.</p> <p>Kasia is interested in the 100% version of the impact analysis in English or a English summary. Ayse will contacted Edwin and Rosanne to</p> | To do | Next Meeting & following |

| | | | | |
|--|--|---|--|--|
| | | ask for an English summary and a presentation | | |
|--|--|---|--|--|

1. Update WT1 Technical issues

- 1.4.1 version will be released because of a bug fix.
- The release date of version 1.5 is planned around autumn, but there is no strict deadline.
- Edwin joined a transmodel Cen working group.

2. Update WT2 Reference implementation and certification

- Eddy and Ayse are working on the market consultation. NTM will fund the professional team for the market consultation.
- The group is still working on use cases. The use cases depend a bit on the results of the market consultation.

3. Update WT3/4 Standards and communication

- Hosting will be done by Goudappel but the domain name will be transferred to Mpact from Ross. Tjalle has Ross his old mail, he contacted him on LinkedIn and did not receive a reaction yet. Action: If somebody has Ross his new email address please send it to Tjalle.
- The group is working on a summary for conferences
- The group is working on the interviews. potential people to interview: Tjalle (chair), Ayse and Maybe Eddy will have contacts of some implementers.
- Jelten suggested to post a LinkedIn post about the presentation Edwin did on the ITS Congress. Action: Jelten and Edwin will contact each other.

4. Other items

- Volunteers for the rotating chair for the general meeting can contact Ayse. .
- Matthias told the group about a funded project which aims to foster an open interface for shared mobility by Matthias Wirtz. Matthias will contact some group members individually.
- Tjalle didn't receive updates anymore from the car sharing operators. Roman mentioned that TOMP is 90% ready for car sharing operators based on his own experience.
- Tu-Tho is working on an interoperability project led by MaaS Alliance and supported by ITxPT, city of Amsterdam and NTM. The goal is better interoperability, better integration, a place where all the initiatives get together. The project is also working on expanding the use cases of CDS-M. Tu-Tho will give an update of the progress every TOMP meeting from now on.
- A TOMP meet up should be arranged again.

The next online meeting (working session #79) will be 25 October 2023.
