Carl Fredlund (MobilityData)
Fabien (MobilityData)
Alberto Capponi (Nordcom)
Lukan Bohn (Evemo)
Ross Curzon-Butler (Translink)
Matthias Wirtz (Hacon)
Jelten Baguet (Mpact)
Roman Itzinger (Carsharing.link)
Tu-Tho Thai (TT&J)

Summary of decision points & feedback from actions from previous working session

1. Approval of report of previous working session

The TOMP Working Group approves the report of the last meeting.

2. Summer meet-up

To plan the meet-up, a form was sent to all members. Twenty people have replied; ten said they could join, and eight responded with "maybe." The date that works best for most of the group is September 5th in The Hague.

Action Point: Ayşe will check with Jeffrey to confirm if he can still host the meet-up in The Hague and cancel the meeting in August.

Action Point: WT $\frac{3}{4}$ will set up a meeting to organize the meet-up.

3. Update Working Teams

- **W1:** The Wikipege is updated. A Couple of issues are coming in, though not many due to the holidays. The roadmap on GitHub has also been updated. Link to the Roadmap on TOMP-API GitHub: <https://github.com/TOMP-WG/TOMP-API/wiki/Roadmap>

Update on CoRoM

The technical report on the different APIs has been finalized. We are currently awaiting feedback from CEN. CoRoM is on a summer break and will resume in

September. Kasia Bouree is retiring, and Emanuel will take over her role. She expressed her thanks to the TOMP WG for the group's recent work.

- **Update CAB**

The Strategical committee has their next meeting on the 16th of September. They asked us if we can have an advice on the house of the TOMP ready by then. This proposal will be discussed on the 29th of august in the CAB

Actionpoint: Tu-tho will plan a moment with Eddy to finish the last work for the CAB.

- **W3/4**

Website: The group received a quotation from an external party for the website, but it was deemed too expensive. Therefore, we have decided to update the existing website ourselves.

Events: The TOMP representation has been accepted for Urbanism Next Europe in Amsterdam. TU-tho and Gemma Scheppers will hold a session. [2024 Urbanism Next Europe Conference - Urbanism Next](#). Mobility Days are also planned, with Tu-Tho presenting the TOMP.

Blog: The interview with Brede Dammen has been posted. Jelten asked everyone to check and like the LinkedIn post. There will also be a post about the meet-up in The Hague.

4. Other updates

Paul mentioned that in recent weeks, some member states in the MaaS Alliance have worked on an interoperability workgroup focused on EDIC and cross-border use cases. [European Digital Infrastructure Consortium \(EDIC\) | Shaping Europe's digital future \(europa.eu\)](#)

Action Point: Paul will present at the next meeting in September on EDIC

Ross expressed strong interest in this topic and mentioned he is working on something related.

Action Point: Ross aims to present the concept to the TOMP working group in October.

The Mobility Data Summit will be held on October 30th in Montreal, Canada. [The 2024 International Mobility Data Summit - New | MobilityData](#)

Edwin is awaiting confirmation on whether he can attend and represent TOMP.

5. Action points

- W3/4: Will work on the summer meet-up; Ayse will send a "save the date."
- CAB: Eddy and Tu-tho will prepare advice on the House of TOMP for the CAB.
- Paul will present on EDIC at the next meeting in September.
- Around October: Ross will give a presentation on his latest work.

Next meeting will be the (Hybrid) Summer meet up on September 5th in The Hague.
