Jef Hyse (Automicle)
Roman Itzinger (Welsstorm)
Jeffrey van Gils (MaasLab)
Gerrit Saey (Censys BV)
Tu-tho Thai (ITxPT)
Kasia Bourree (CEN)

Summary of decision points & feedback from actions from previous working session

The following tasks were defined during the previous sessions:

<i>No.</i>	<i>Context</i>	<i>Tasks</i>	<i>Status</i>	<i>Due date</i>
70.1	Involve car-sharing operators and discuss progress on implementing TOMP-API	Bram will do his best to provide more details about which car-sharing operators are interested in using TOMP-API. Also, an update about which are using a third-party provider for their IT solution or the mobile app. <u>Action:</u> Tjalle will try to get involved one last time.	To do	Next Meeting.
74.1	NAPCORE WG seeks collaboration with the TOMP WG. NAPCORE had a discussion about booking APIs.	NAPCORE finds the TOMP-API overall useful for bookings, but there are cases that the API doesn't cover (for example tourist tickets). There is	To do	Next Meeting & following

		potential for a collaboration to cover this GAP. <u>Update:</u> Anastasia is preparing a document with this information. Eddy and Edwin will receive it when it's done. Otherwise Tu-tho will send it to Edwin.		
74.1	Discussion about the alignment with CEN, Transmodel, OSDM.	Impact assessment is almost finished. It should give insights in collaborating with CEN, Trans model or OSDM. <u>Update:</u> The document right now is a 80% version. Hopefully the next TOMP meeting it will be a 100% version.	To do	Next Meeting & following

1. Update WT1 Technical issues

Wt1 considered to postpone the version 2.0, because of the CEN, OSDM discussion. The change advisory board is informed by Edwin and Eddy about the impact of the new version. There were no objections.

- There is an opportunity that TOMP will be an European reference standard. Edwin will ask about the requirements to be a reference standard.
- 1.4.1 version will be released because of a bug fix.
- The release date of version 1.5 don't is not known yet.
- New members joined WT1.

2. Update WT2 Reference implementation and certification

- NTM hired a professional team to do market consultation. the members of the working group will be involved later on.
- Eddy will get in touch with the contact person of APDS one last time.

3. Update WT3/4 Standards and communication

- Jelten and Tjalle worked on the first interview with eddy, the next one will be contacted soon.
- Action: If you know companies who implement TOMP, and they would like their logo on or website, contact Tjalle.
- Currently the working team is small. Volunteers can contact Tjalle to join WT3/4.
- Action: The TOMP website needs some help, if you know any volunteers contact Tjalle.
- Jelten suggested to post a LinkedIn post about the presentation Edwin did on the ITS Congress. Action: Jelten and Edwin will contact each other.

4. Update WT6 Governance

- WT6 temporarily stopped. After the impact analysis is done, the working team can be activated again.

5. Other items

- Volunteers for the rotating chair for the general meeting can contact Ayse.
- A TOMP meet up should be arranged again.

The next online meeting (working session #78) will be 27 September 2023.
