#### 2. Discussion on Memo Progress of TOMP-API implementation

- For better dissemination and support a draft of a questionnaire to ask whether organizations use TOMP was discussed. It was not really possible to discuss this in depth during the meeting since the document is in Dutch, whereas a lot of the participants today were not dutch
- Ruud Mollema gave some explanation that there was no hurry to approve today and that a translation would be provided. It was agreed that members to give feedback on the document before next workgroup meeting.
