### **Summary of decision points & feedback from actions from previous working session**

The following tasks were defined during the previous sessions:

<i>No.</i>	<i>Context</i>	<i>Task</i>	<i>Status</i>	<i>Due date</i>
57.1	Future payments in PT	<b>Ross</b> to check whether he can give presentation	To do	8-12-2021
58.1	EC call for shared mobility	<b>Tu-Tho</b> finished the first draft of the 2-pager and shares it in the Slack channel.	To do	8-12-2021

### **1. Approval of report of previous working session**

The report of the previous working session (#57) was reviewed during this session and has been approved. It will be added to GitHub.

### **2. PoC bloXmove**

- bloXmove has integrated the TOMP-API in the platform and has been working on a proof of concept to exchange registration details in a decentralized way.
- The demo of Fleet2Share shows that different assets can be booked, also with the TOMP-API. Decentralized identifiers are used to book a vehicle. The PoC will be open source available and more specific sessions can be planned to understand the concept.
- The general message of bloXmove is that their platform is able to build an ecosystem of independent providers, including the standards of the Dutch MaaS ecosystem.
- The overall results of the proof of concept will be presented at Friday 26 November. Register via this [link](#).

### **3. Update WT1**

- All selected issues are merged into version 1.3 and there are no big issues at the moment.
- The release date of version 1.3 is postponed to January 18. This gives WT4 more time to set up the communication message.

### **4. Update WT2**

- Working on ongoing developments, such as joining the Open Wheels feedback sessions, discussion on TOMP specific parts of contract information and sessions with bloXmove.

### **5. Update WT4**

- The filming of promotion videos for TOMP has been delayed due to new regulations in the Netherlands.
- Next to the communication regarding version 1.3, the WT will also start with a roadmap for next year.

**Next online meeting (working session #59) will be on Wednesday 8-12-2021, 10:00h**
