

Report of MaaS-API working group

*26/5/2021, session #48
10:00h-11:00h, Teleconference*

Attended by (17)

Bon Bakermans (Ministry IenW)
Christiaan Rakowski (XXIMO)
Eddy Borremans (Nazza)
Edwin van den Belt (DAT.Mobility)
Gadi Lenz (UMI)
Gerrit Saey (Censys)
Kushagra Sharma (Radiuz)
Marco Hennipman (Siemens)
Marijn Roverts (PON)
Miroslav Spajic (Altran Spain)
Peter van Brakel (g292)
Ross Curzon-Butler (Cargoroo)
Ruud Mollema (Ministry IenW)
Stefan Bollars (Innovactory)
Stephan Rösli (SBB)
Tjalle Groen (Mpact)
Tu-Tho Thai (Mobility Data)

Summary of decision points & feedback from actions from previous working session

The following tasks were defined during the previous sessions:

<i>No.</i>	<i>Context</i>	<i>Task</i>	<i>Status</i>	<i>Due date</i>
48.1	Mission and vision of TOMP working group	WT2 started with a brief description of the mission and vision. All to give input in the slack channel of WT2	In progress	10-6-2021
48.2	GDPR related issues	For example the use of license plate. Anyone with GDPR experience to join the discussions in WT2	Open request	10-6-2021
48.3	Budget rights in the TOMP-API	Ruud to ask a representative of the MaaS pilot in Twente to share their solution	To do	10-6-2021
48.4	NS treinwijzer	Edwin and Eddy to advice NS in second deepdive	To do	10-6-2021

48.5	Update of the National Access Point for Mobility	Ruud to ask Wouter Quite for a brief presentation in the WG. Ruud also asks whether someone of the crossborder pilot (Limburg) can present the digital travel right store.	To do	10-6-2021
48.6	Blockchain and mobility week (21-25 June)	Bon to invite the member of the TOMP WG	To do	21-6-2021
48.7	CROW travel dictionary	Ruud asks CROW how to proceed with an English translation	To do	10-6-2021

1. Approval of report of previous working session

The report of the previous working session (#47) was reviewed during this session and has been approved. It will be added to GitHub.

2. Update of organizational structure technical MaaS standards

- In earlier TOMP working group discussion the WG agreed on setting up organizational structure with a Strategic Committee for technical MaaS standards (TOMP, CDS-M, API for learning environment).
- Ruud and Bon asked the first members for the SC. The members represent public transport, taxi, shared modes, MaaS providers and municipalities. In the followings weeks the proposed members will be officially installed and the SC can start.
- The next step is to create a Change Advisory Board that advises the SC.

3. WT1 Technical issues

- A second hotfix (1.2.2) was needed, but no breaking issues.

4. WT2 Reference implementation

- For the future alignment with other standards, and the more formal organization structure the WT has been thinking about a mission and vision (**48.1**).
- The WT has been discussing about the use of a license plate but this may give GDPR related issues. Also for other topics the WT lacks the knowledge or experience with GDPR. Anyone that may help with these topics is very welcome to join the discussion in WT2 (**48.2**).
- The topic for budget rights (for example third party payments) is still on the agenda. Ruud suggests to ask a representative of the Twente pilot to present their solution in the WG (**48.3**).

5. WT3 Standards

- NS has developed a service to register your train trip (Treinwijzer). They are looking for a way to provide the service with TOMP. Edwin and Eddy (if needed) are willing to give advice in a second deepdive session with NS (**48.4**).
- The working group of GOFS (toolbox of Mobility Data) agreed on using TOMP in their process.

- NDW and the Ministry are working on a next step of the national access point into a National Access Point for Mobility (NTM). Ruud will ask Wouter Quite (lenW) to give an update in the working group (48.5).
- The Dutch Blockchain Coalition and the Ministry of lenW are organizing a Blockchain and Mobility week (21-25 June). The focus will be on identities and their solution in MaaS. Bon makes sure that the TOMP WG will get an invite for the event (48.6)

6. WT4 Communication and dissemination

- WT is working on several blogpost and interviews with (early) implementors.
- The website has a new page for news and events.
- Request: let the WT know whether there are dissemination opportunities at interesting magazines. For example the urban mobility week.

7. Any Other Business and next meeting

- Ruud contacts the CROW for an English translation of the travel dictionary (48.7).
- The Limburg crossborder pilot developed a digital travel right store with a dynamic bar code and a price calculation engine. This will an interesting showcase for the TOMP WG (48.5).

Next online meeting (working session #49) will be on Wednesday 9-6-2021, 10:00h
