27/7/2022, session #67
10:00h-10:30h, Teleconference

Attended by (9)
Christian Cagnol (Axway) - Chairman
Eddy Borremans (Nazza)
Gerrit Saey (Censys)
Jef Heyze (Mobinck)
Marijn Roverts (PON)
Markus Meier (SBB)
Paul Theyskens (TOBANIA)
Tu-Tho Thai (MobilityData)
Tjalle Groen (Mpact) – joined after the meeting was closed, as he did not receive the invite

Summary of decision points & feedback from actions from previous working session

The following tasks were defined during the previous sessions:

No.	Context	Task	Status	Due date
64.1	Interoperability of standards (Transmodal, TOMP, MobililtyData)	**Kasia** and **Edwin** continue the discussion. Also involve Tu-Tho in the discussion. Publish article about cooperation. Update: still in progress	To do	Next TOMP WG
66.1	Overview of TOMP users and first step of certification	**WT4** will think about a good way to make such an overview	To do	Summer 2022

1. **Approval of report of previous working session**
   The report of the previous working session (#66) was reviewed during this session and has been approved. It will be added to GitHub.

2. **Update WT1**
   - No update as no WT1 members participated

3. **Update WT2**

- Update from Eddy on the collaboration with APDS (standardized data model for parking)
  - The initial meeting took place and another meeting is scheduled for August 17th. Everything looks good regarding this collaboration

4. **Update WT3**
   - No Update

5. **Update WT4**
   - Update from Gerrit on the gathering in Ghent :
   The most probable date is September 2nd. This will be confirmed shortly.
   - Progress is being made on the video

6. **AOB**
   - Paul Theyskens brings up the subject about interactions between TOMP-API and the IDSA/ Gaia-X initiatives around Mobility.
   - Paul presents an overview of the current initiatives in France, Netherlands, Germany and Spain and offers to cover the subject more in depth for the next session, involving Harmen van der Kooij as well
   - Question from Markus Meier about the links between Gaia-X Data Spaces and National Access Points (NAP). Paul addresses the point:
     1. Currently NAP is "just" a Data Portal
     2. NAPCORE will provide an extension which will allow for Integration & Services
     3. Imec is writing a White Paper on this topic (to be released early september)

Next online meeting (working session #68) will be on Wednesday 28-8-2022, 10:00h
